Comments and corrections

1. Bibliography. Insert the following items.

2. German Transcription page
   a. The credit under the photo should read *Archives of the Mathematisches Forschungsinstitut Oberwolfach*.

3. Hilbert and Mathematical Inquiry page
   a. Paragraph *An earlier foray* should include a reference to Finkelstein 2013, an excellent du Bois-Reymond biography that emphasizes the social context of his work.
   b. In the caption *Konigsberg in the 1930s* the first parenthetical statement should also refer to Hopkins & Wilson 2004. That paper gives a more detailed account of the solution of the seven-bridges problem.
